

Logistics

We keep goods moving.

The Columbus Region is your channel to the global marketplace.

Through truck, rail, air and port, the Columbus Region logistics infrastructure gets your freight where it needs to be, when it needs to be there. Located within a day's drive of nearly half the population of US and Canada, Columbus is uniquely positioned to provide you with the ideal logistics hub. In fact, Inbound Logistics ranks Columbus as one of only three [logistics hotspots](#) in the Midwest. No freight stops here – unless it's meant to be sold to the 1.7 million people in our region.

How do we do it?

We combine our existing infrastructure with the forward-thinking minds of our industry leaders, nationally recognized research facilities, technology providers and 20 colleges and universities. This helps us find the fastest, most cost-efficient method to move your freight anywhere in the world.

Our market access, infrastructure, warehouse space and workforce combine to create the ideal logistics hub to keep your goods moving to their destination, wherever that might be.

[Watch this NBC4 report](#) that features logistics as an industry of the future.
